## EXPERIENCE

### **Skriptor - Joseph Groups, Dubai — Software Developer**

October 2019 - PRESENT

Working there as a full-stack engineer, developing multiple products as per their needs.

By using PHP(core) & MYSQL combined with HTML, CSS, JS I fixed and added new features/functionalities to the company website. After that I was responsible for maintaining it.

By using Flutter & Firebase, I built two social media platforms for them from scratch and currently I am maintaining the apps.

### **Sapphire Consulting Services, Karachi — Junior Consultant/ Developer**

July 2018 - Oct 2019

Design & develop solutions for government entities' projects. Fix issues and provide technical consultancy when need arises. During my employment in the firm I worked on Angular, Spring-Boot, Struts 2 & Oracle DB along with a few of Oracle's proprietary softwares.

### **Hubstaff, Karachi — Software Engineer**

March 2018 - July 2018

Modify existing software to correct errors, allow it to adapt to new hardware, or to improve its performance. Develop and direct software system testing and validation procedures, programming, and documentation. Analyze user needs and software requirements to determine feasibility of design within time and cost constraints. Design, develop and modify software systems, using scientific analysis and mathematical models to predict and measure outcome and consequences of design. During my employment there I worked with traditional tools for web designing (HTML, CSS, JS) & PHP + MySQL.

### **Jetnetix, Karachi — Full Stack Web developer Intern**

Feb 2017 - August 2017

Design, build, or maintain web sites, using authoring or scripting languages, content creation tools, management tools, and digital media.
